

Empowering Recovery

Medication-Assisted Therapy (MAT)

Are You or A Loved One Struggling with Addiction?

At Pivotal, we offer wellness, hope, and recovery. This includes medication-assisted treatment for those suffering from addiction.

MAT Medications Save Lives

Using FDA-approved medications in conjunction with other support mechanisms, Pivotal combats substance use disorder and addictions to help save lives. With a “whole patient” approach, we offer medication-assisted treatment alongside counseling and medical, educational, vocational, or other therapy services designed with each patient’s specific needs in mind.

Reducing Overdose

Medication-Assisted Therapy significantly lowers the risk of relapse and overdose by a factor of 8*.

*Factors associated with opioid overdose during MAT. (SAMHSA, 2021, July 21)

Care Designed For You

Medication-Assisted Therapy is customized to suit each individual's needs. Medication helps with the withdrawal, while counseling helps with recovery.

Recovery Is Possible

When withdrawal symptoms stop, individuals can dedicate their time and energy to long-term aspirations, achieving remission, and recovery.

You Are Eligible for Care!

At Pivotal, we are a Certified Community Behavioral Health Clinic, which means **we provide comprehensive behavioral health care to anyone who requests care, regardless of your ability to pay, place of residence, or age.** We also provide crisis services that are available 24 hours a day, 7 days a week. Getting started on your healing journey is as easy as calling **269-467-1000** or visiting us online at **PivotalStJoe.org**.
